PRESS HERE TO RELEASE!

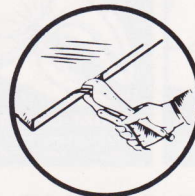

Only a VISE-GRIP will hold without slipping on a job like this.

As portable vise. Locks on—holds any shape—never slips.

As lock-on handle. For chisels, screw drivers, files, etc.

As portable toggle press. For heavy forming, twisting, bending, crimping, etc.

WORLD-FAMOUS STRAIGHT JAW MODEL

WISE-GRIP's "Double-Lever" action enables the grip of one hand to lock the quickly-adjusted jaws with more than TON pressure. Jaws remain locked to the work, with hands removed, often eliminating the need for a helper. Holds anything, any shape, without slipping.

WISE-GRIP is actually a portable vise, super-pliers, adjustable end wrench, clamp, pipe wrench, locking wrench, and toggle-press—all in one light, trim, handy tool.

This tremendous Ton-Grip—ideal for 1,001 jobs—was invented and developed exclusively by VISE-GRIP engineers. Each tool is guaranteed against defects in materials and workmanship.

MATERIALS—FINISH
WISE-GRIP is built of special alloy steels, scientifically hardened and tempered for the utmost strength and durability. Every tool is absolutely guaranteed against defects in materials and workmanship. Bright nickel-plated finish to prevent rusting, corrosion.

Product

- Eliminates Tiresome Hand Gripping!
- Powerful Non-Slip Grip!

Locks to work with powerful non-slip grip. Eliminates tiresome hand gripping . . . to bend, form, crimp and straighten. Ideal for holding templates, holding work for soldering, riveting, etc. — also duct work. Excellent for upholstery work.

For jobs not requiring a Locked Grip, simply tighten end screw so that jaws give non-locking plier action. A light hand grasp exerts tremendous pressure on jaws. Tool has deep throat reach: Up to 13¼".

NEW

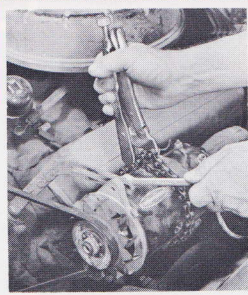

WISE-GRIP[®] **CHAIN WRENCH**

Locks onto anything the chain
can be wrapped around!

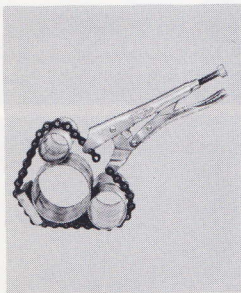

IT LOCKS!

Aligning or removing
diesel exhaust stack.

Holding generator while
tightening belt.

Holds anything!

Removing tractor muffler.

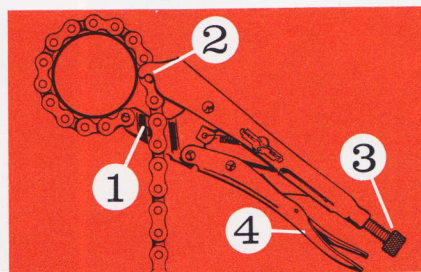

Removing and installing
tractor bolster shaft.

Holding shaft while
removing pinion nut.

- Will not slip • No teeth to mar work
- Even pressure won't flatten thin-walled pipe, etc.
- Adjusts to ratchet-like action
- Works in close quarters
- Does job when nothing else will
- 19" chain holds any shape

EASY TO USE!

Just wrap chain around work; lay chain through jaw channel (1) and hook (2). Adjust screw (3) for size. Close lever (4). That's all! Hands are free. Wrench operates in either direction when locked (or as ratchet).
